

Activity Two: I've Invented a New Winter Olympic Sport!

(All web links for this activity are provided at the end of the directions.)

In this activity, students have the opportunity to invent their own Winter Olympic sport. They may choose to combine some existing sports or create a brand new event.

Students will want to include the following information for their sport:

1. Name
2. Number of players
3. Object of the sport
4. Rules that participants must follow
5. Equipment and playing area needed for the sport
6. Any additional information they feel is necessary to share.

Along with the description, students will also need to include an illustration of their favorite sport.

Once students have created both their description and illustration, their work is ready to be shared with the world. You may choose from a variety of upload options: web page, wiki, Voice Thread, SlideShare, and Smilebox. Directions will be provided for uploading.
